UNOPS Regional Director for Africa visits Ghana

The Regional Director will visit the UNOPS Ghana Multi-Country Office and engage in discussions with key partners. During the visit, UNOPS will also officially hand over an e-library to the Ghana National Aids Control Programme.

The UNOPS Regional Director for Africa, Ms Dalila Gonçalves, will be in Ghana for a two-day official visit on 27-28 June 2024. The Regional Director will engage in strategic discussions with key Government Ministries and agencies in Ghana, the UN family and development partners in the country.

As an implementing agency of the United Nations, UNOPS continues to support the achievement of the Sustainable Development Goals (SDGs) through services including infrastructure, procurement and project management. The high-level visit aims to explore and leverage how UNOPS can further support the Government of Ghana to achieve national development priorities by building and strengthening the capacity of Government institutions.

During this visit, on Friday 28 June, UNOPS will hand over an e-library to the Ghana National Aids Control Programme. The e-library will serve as a central repository for HIV/AIDS-related resources aimed to enhance knowledge sharing, program effectiveness, and ultimately contribute to a more informed national response to HIV/AIDS.
