United Nations

What is the AI Scientific Panel?

The first **global scientific body** dedicated entirely to **artificial intelligence**.

Advances **scientific understanding** & ensures deliberations are informed by the **best available evidence**

Builds on the **Global Digital Compact**

Builds on the recommendations of the **Secretary-General's High-level Advisory Body on AI**

What makes the Panel unique?

- **Acts** as an early warning system & evidence engine
- **Levels** the information playing field
- **Bridges** AI research & policy
- **Informs** international debates
- **Ensures** inclusive perspectives
